DONOR PROGRAM SUPPLEMENT

SCHEDULE
OF FEES
JULY 2024
v3

CONCEPT DONOR PROGRAM

This document outlines the costs involved in meeting the legal, clinical and Concept requirements that must be undertaken before a recipient is able to utilise a donation of either gametes (sperm / eggs) or embryos for their fertility treatment. It does NOT include the cost of any treatment for the recipient nor any import or export costs that may be involved.

For a full overview of all the fees involved in undergoing treatment with the use of your donor once all mandatory requirements have been met, it is essential that this document is read in conjunction with the current full Schedule of Fees.

UNKNOWN DONOR

DONOR PROGRAM MANAGEMENT FEE

Management Fee	This fee will be invoiced upon completion of the recipient's initial individual counselling session. One off fee unless your circumstances require another initial counselling session, please query with our Donor team. If an application to the Reproductive Technology Council is required, our donor team can guide you through the process. An additional fee will apply at the time.	\$500
----------------	--	-------

COUNSELLING

Unknown Donor Waitlist Counselling	Recipient (and partner if applicable) to attend at least one session prior to accessing the donor waitlist and or international egg/sperm banks.	min \$190
Unknown Donor Follow-up Counselling	Recipient (and partner if applicable) to attend at least one session once a donor has been chosen.	min \$190

BIOLOGICAL SUPPLIES

UNKNOWN DONOR

Sperm Donor	Sperm Donor This is a per cycle fee. IVF / ICSI and IUI cycles only.	\$1,250
Egg Donor	This includes the full complement of eggs produced by the donor. The number of eggs will vary.	\$15,000
Embryo Donor	Per embryo	\$1,400

INTERNATIONAL DONOR BANKS

Sperm, eggs, and embryos can be imported from overseas. Please email our donor team donor@conceptfertility.com.au for the contact details of the international donor banks to which Concept is affiliated. Please contact these external providers directly for details about their fees.

STORAGE FEES *

Cryopreserved gametes / embryos (Invoice issued by Embryo Options)	This is an annual fee that applies from the date of donor allocation to the recipient patient.	\$350
---	--	-------

* **IMPORTANT NOTE** Annual Storage Fees will be subject to change over the course of multi-year storage periods. The Annual Storage Fee for each year will be charged in alignment with the Schedule of Fees that is active at the time. Fee changes will occur at the discretion of Concept and will be made available on our website at www.conceptfertility.com.au Annual storage fees are managed by Concept's billing partner Embryo Options.

KNOWN EMBRYO DONOR

DONOR PROGRAM MANAGEMENT FEE

Management Fee	This fee will be invoiced upon completion of the recipient's initial individual counselling session. One off fee unless your circumstances require another initial counselling session, please query with our Donor team	\$500
----------------	--	-------

IMPORTANT: the creation of an embryo requires two people who are BOTH considered the donor and they therefore must each meet all requirements for donation. If the creators of the embryo(s) being donated are in a relationship together, then the sharing of appointments may be possible. If they are not in a relationship, there may be a requirement to conduct separate sessions with the counsellor and fertility specialist, the cost of which the recipient will meet.

The fees below are the *approximate* costs that will be incurred by the recipient to meet the clinical, legislative and Concept requirements for your donor to be eligible for use.

FERTILITY SPECIALIST CONSULTS (External Provider)

Fertility Specialist	Minimum of 3 consults (minimum 1 x donor and 2 x recipient) Cost is dependent on the Fertility Specialist Payable to the doctor on the day of consult	\$150 - \$350 per consult
